

How to Install your SYSPRO Add-On License

It is recommended that all users be out of the system before installing your license. The instructions below are for SYSPRO 7/7.1, but the same general instructions will also work for earlier versions.

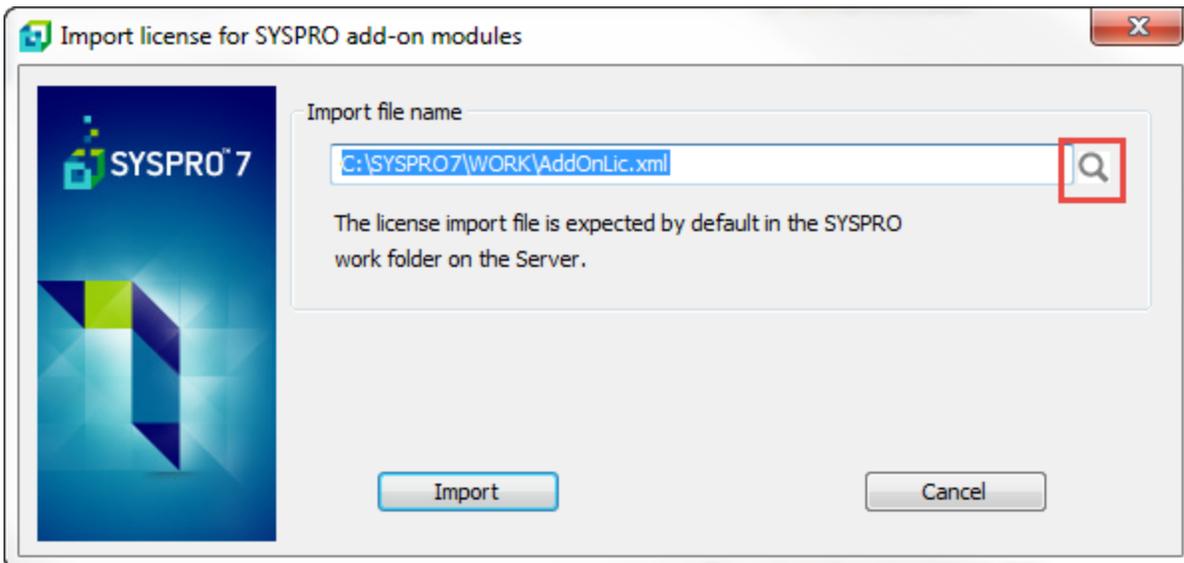

You should have received an email from SYSPRO including your XML license file(s). You may have received two; one being your “core” license, and another being your “add-on” license. This guide will show you how to install the Add-On license. Please refer to the “How to Install your SYSPRO License” to install your core license.

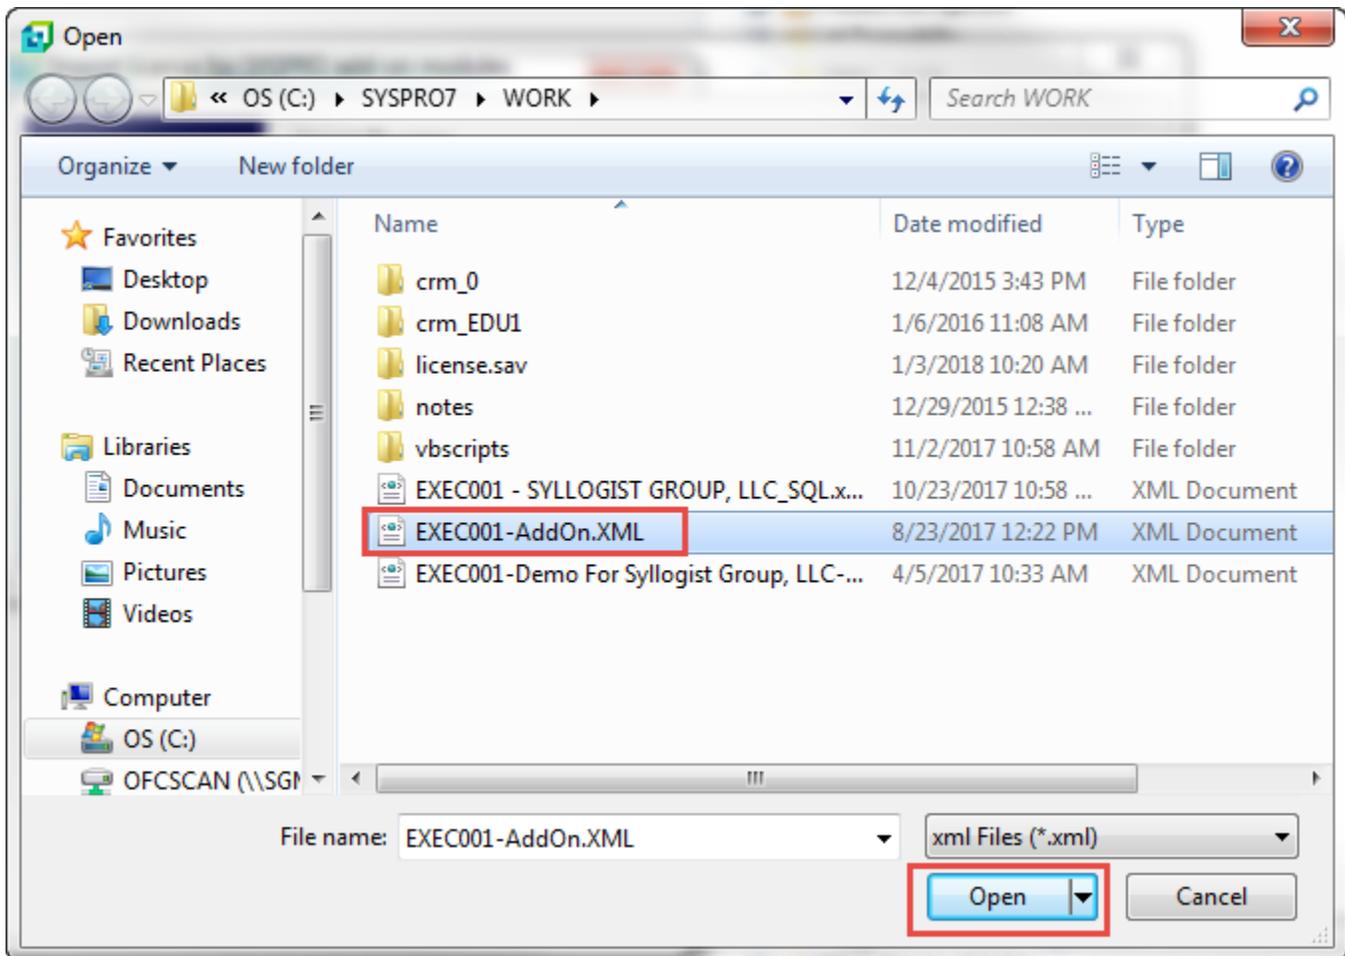

1. First, save your Add-On License XML file on the SYSPRO Application Server. SYSPRO recommends saving it in the SYSPRO/Work folder, but it can be saved anywhere you prefer.
2. Next, login to SYSPRO (preferably on the server) and open the “Add On Module Registration” on the Program List. If you do not see this on your program list, click the SYSPRO icon > “Run A Program” > enter SURP02. Then, click “Import License”

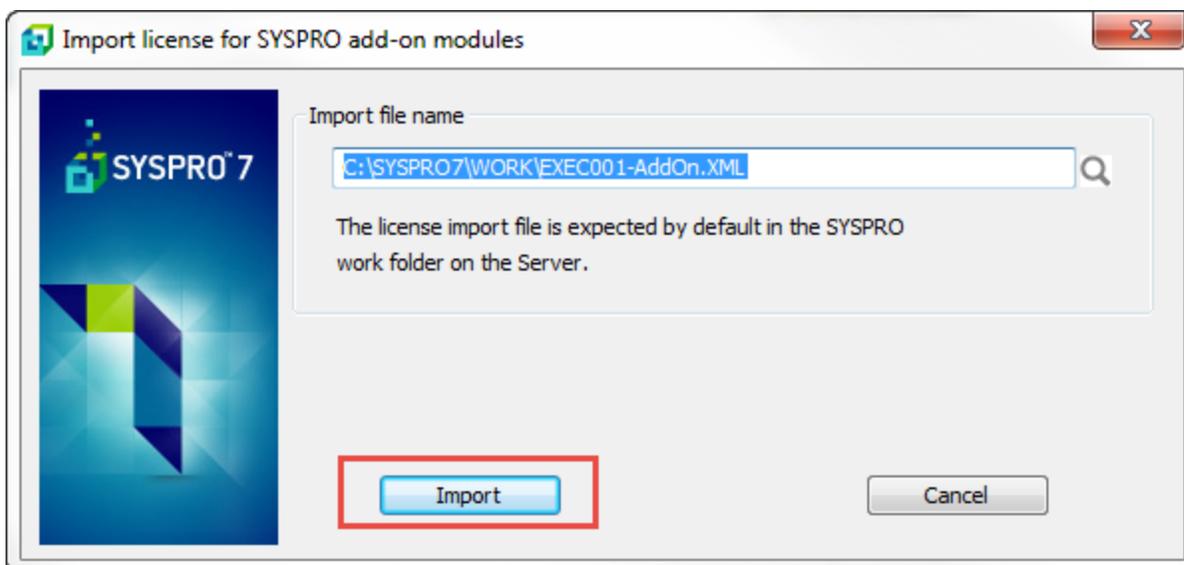

3. Click the magnifying glass to browse to the Add On License XML file you just saved

4. Click "Import"

5. Click "Save"

Company license for add-on modules

Company name: SYLLOGIST GROUP, LLC (SQL)

Licensed users: 16 Version: 7.0

License expiry year: 2019 Expiry month: 1

Registration number: 2852313379
