How to Install your Cadacus Licenses

This information was taken from steps 3-5 of the installation process on the Cadacus website: <u>https://www.cadacussolutions.com/tutorials/installation-upgrades/install-cadacus-solutions</u>

- 1. Place your XML license files in your chosen SYSPRO folder
- This is not a requirement, but SYSPRO will look for your license files in the SYPRO folder: \Work
- NOTE 1: These instructions assume the primary SYSPRO license file has already been installed.
- NOTE 2: Depending on the solutions you are licensing, you may have one or two Cadacus license files. For EDI, Shipping, and Freight Calculator Solutions, you will receive an "Addon" license from SYSPRO. For all other "Cadacus" solutions, you will receive a license file from Cadacus with the word "Cadacus" included in the file name. Below is an example of the license files:

2. Register your Addon licenses (if applicable)

This step will register licenses for the following SYSPRO Addons:

- EDI System
- Shipping System
- Freight Calculation System
- Launch SYSPRO from your Windows Start menu, click the SYSPRO "File" menu, and select "Run a Program":

3 SYSPRO - CADACUS CONSULTING					
	Ŧ)		
	New	•			
	Switch Company	Ctrl+C	, Pane		
	Company Date	Ctrl+D	-		
F	New SYSPRO Insta	nce			
	Run a Program	Ctrl+R			
	Run Last Program	Ctrl+L			
	Exit SYSPRO				
			-		

• Enter EDIMNU, then OK:

• The Solutions for SYSPRO window appears (below)-- double-click on "Registration":

5. Register Cadacus Solutions licenses (if applicable; this includes Warehouse Management & Handheld Solutions)

- NOTE: For detailed instructions on licensing the Cadacus SFS Handheld Solution, go here.
- Now, if you also have licenses for Cadacus Solutions (such as the Warehouse Management or Handheld Solution), click "Import Cadacus SFS Licenses" on the above window.
- Select the Cadacus Solutions for SYSPRO license file (copied from Step 2 above) and click "Import" (example below):

License Import
